## Professional & Personal Devices

For patients suffering from acute, post-surgical, and severe intractable chronic pain, InterX Neuromodulation devices offer natural, effective pain relief and decreases the need for medication. InterX devices are applied directly to the skin without the need for any conductive gel and without discomfort. Electrode accessories are available for specialized, dynamic and unattended treatment.

### INTERX 5002 Pro Device

Product 1146-001

#### FEATURES

- Biofeedback displays as **diagnostic impedance readings, skin contact verification and timer** during active treatment allowing user to identify optimal treatment points and treatment progress
- **Display** screen navigation of settings, intensity, battery life, and volume and brightness options
- **14 settings** include chronic and acute frequencies and pre-sets
- **Lightweight, portable** with 4 AA DC Alkaline Batteries power source
- **Non-invasive, smart InterX neuromodulation technology** listens to biofeedback and responsively delivers interactive and painless waveform is that is pulsed, damped bi-phasic sinusoidal

#### SPECIFICATIONS

- **Size:** 220mm x 63mm x 45mm
- **Weight:** Approx. 11.6 oz (330 g)
- **Frequency:** 15-480 Hz
- **Typical Peak Voltage Output (on skin):** 135 V
- **Typical Average Voltage (on skin):** 17 V

### INTERX 1000 Personal Device

Product 1243-001

#### FEATURES

- **Displays** frequency setting and intensity settings
- **5 settings** include chronic and acute pre-sets
- **Lightweight, portable** with 2 AA DC Alkaline Batteries power source
- **Non-invasive, smart InterX neuromodulation technology** listens to biofeedback and responsively delivers interactive and painless waveform is that is pulsed, damped bi-phasic sinusoidal

#### SPECIFICATIONS

- **Size:** 215mm x 52mm x 43mm
- **Weight:** 6.5 ounces (185 grams)
- **Frequency:** 15-480 Hz
- **Typical Peak Voltage Output (on skin):** 135 V
- **Typical Average Voltage (on skin):** 17 V

## Electrode Accessories

For professional and personal users, InterX Electrode Accessories give specialized treatment options. All accessory attachments are compatible with the InterX 5002 and InterX 1000 devices except the Small Soft Tissue Electrode Accessory is only for use with the InterX 5002. InterX devices can effectively be used without electrode accessories; however, a variety of electrode accessory attachments are recommended for dynamic, unattended and treatment methods.

### 3x3 DUAL FLEX ARRAY

Product# 1376-001 / SIN A 72

Use for **neck, spine, joints, and extremities**, and for unattended treatment.

### 4x4 FLEX ARRAY

Product# 1299-001 / SIN A 72

Use for **spine, hamstring, and quad**, and for unattended treatment.

### CLASSIC

Product# 1569-001 / SIN A 72

Use for scanning **hand, wrist, toes, ankles**. Made for small treatment areas, giving better skin contact and a more precise readings with the use of the InterX 5002.

### COMB

Product# 1070-001 / SIN A 72

Use for scalp and where hair may interfere with electrode contact, such as **head injury**.

### COSMETIC

Product# 1075-001 / SIN A 72

Use for facial treatment of **face, neck, jaw, TMJ** for massage and scar management.

### DOME

Product# 1295-001 / SIN A 72

Use for larger areas of skin and large muscle groups in treating **tendonitis** and **plantar fasciitis**. Highly recommended for **dynamic treatment** including stretching.

### SOFT TISSUE — Universal

Product# 1674-001 / SIN A 72

Use for **soft tissue manipulation and massage** for fascia restrictions and scar management.

### SOFT TISSUE — Small

Product# 1538-001 / SIN A 72

Use for **hands and feet**. For use with InterX 5002 Pro device only.

## Pricing & Payment

Identification of the lowest priced model number and lowest unit price for that model for each special item number awarded in the contract. This price is the Government price based on a unit of one, exclusive of any quantity/dollar volume, prompt payment, or any other concession affecting price. Those contracts that have unit prices based on the geographic location of the customer, should show the range of the lowest price, and cite the areas to which the prices apply.

### Quantity Discounts:

Purchase 10 of the same items, get 1 of the same item for free

### Prompt Payment Terms:

1% - 20, Net 30 days, credit cards excluded

### Warranty and Return Goods Policy provision:

See FSS pricing.

**Government purchase cards** are accepted at or below the micro-purchase threshold with no maximum amounts. Government purchase cards are accepted below and equal to the micro-purchase threshold, with no maximum amounts. Terms and conditions of Government purchase card acceptance are accepted above the micro-purchase level.

## Delivery

**Time of delivery:** 2-5 business days ground after receipt of order (UPS or other carrier)

**Expedited delivery:** 48 hours after receipt of order. Government is responsible for difference between normal and expedited delivery. Overnight and 2-day delivery: 2 days expedited for all products at an additional charge. The schedule customer may contact HTK Enterprises for rates for overnight and 2-day delivery.

**Urgent requirements:** The schedule customer may (as part of the "Urgent Requirements" clause) contact HTK Enterprises, Inc representative to effect a faster delivery.

## Ordering

**Ordering Procedures:** For supplies and services, the ordering procedures, information on Blanket Purchase Agreements (BPA's) are found in Federal Acquisition Regulation (FAR) 8.405-3 System for Award Management (SAM) database Awarded. For information on ordering from Federal Supply Schedules, go to: <http://gsa.gov/portal/category/100623>

"My section provides behavioral medicine and pain management services (adjustment to disability, anxiety/depression, insomnia, grief and loss, pain management, PTSD) in a rehabilitation setting for military service members, Veterans, and dependents who sustained serious injuries (e.g., multi-trauma, burns, critical care, major surgery). I have used the InterX on over one hundred patients since 2014. Although the device works to some degree on numerous pain conditions, I consider it an integral tool for patients who are struggling with severe neuropathic pain conditions like Complex Regional Pain Syndrome and Phantom Limb Pain."

—Benjamin Keizer,

PhD Psychology,

Rehabilitation and Psychology Center

Center for the Intrepid

Department of Defense

San Antonio Military, Medical Center

## Natural & Effective Pain Treatment

InterX Non-invasive Neuromodulation devices are Class II Medical Devices with 510(k) clearance by the US FDA for symptomatic relief and management of chronic intractable pain and adjunctive treatment in the management of post surgical and post traumatic pain.

Manufactured in the USA since 2005, InterX non-invasive neuromodulation devices have been safely and effectively used by medical professionals and patients in the USA Army, USA Marines, USA Airforce, the Mayo Clinic, Duke University, NFL and Olympic Teams.

## InterX Research

Ongoing research demonstrates pain and medication reduction with InterX Neuromodulation, a safe, non-invasive and drug free treatment for acute and chronic pain.

Year	Study	View Study:	Pain Reduction	Medication Reduction
2019	Low-Grade Lateral Ankle Sprain	<a href="#">Randomized Controlled Study</a>	Yes	Yes

2005	Unsolved Sports	<a href="#">Abstract</a>	Yes	Not measured

"I was on narcotic painkillers for 8 years before finding InterX. I had tried everything anyone threw at me. From different medications including seizure medications, anti-depressants, DMSO, pain killers, cbd cream to neuro biofeedback, nerve blocks, tens units, cold laser therapy, to mirror therapy. I had tried anything and everything I could to relieve the pain. I did experience a 100% reduction in pain medicine since InterX. My pain management doctor stated he had never had a patient take them self off of opioids like I did."

-Erin,  
Business Management  
Regional Sympathetic Dystrophy (RSD) /  
Complex Regional Pain Syndrome (CRPS)

"Three years after [ankle replacement] surgery, I asked the surgeon to amputate my leg from my knee down. I couldn't walk. I had to quit my job. They had me on some narcotics, but with all the new laws they had to stop that. There were no benefits from medications or the nerve release surgery. Now [after 4 InterX treatments] I am sitting here with no pain. And that hasn't happened in three years."

—Brian,  
Insurance Adjuster and Nurse  
Nerve Damage in Ankle Replacement  
Surgery Limited Mobility  
Amputation Candidate

"I have had much experience with the InterX units and have advocated their use in 3 other clinics; in some of these locations we maintained over 20 units.

I have found them to be invaluable tools both in my role as a primary care physician and as an integrative medicine specialist."

—Respectfully,  
**Thomas R. Piazza, MD**
